**NABIP Congratulates Dr. Mehmet Oz on Confirmation as CMS Administrator**

*Washington, D.C.* -- The National Association of Benefits and Insurance Professionals (NABIP) congratulates Dr. Mehmet Oz on his confirmation as Administrator of the Centers for Medicare & Medicaid Services (CMS). CMS plays a vital role in shaping the nation's healthcare system, overseeing programs that provide coverage to more than 150 million Americans through Medicare, Medicaid, and the Affordable Care Act marketplaces.

"NABIP members are on the front lines every day, helping seniors, individuals, families, and businesses navigate complex health coverage decisions," said NABIP CEO Jessica Brooks-Woods. "We are encouraged by Dr. Oz's commitment to pragmatic, results-oriented leadership and look forward to working with him to promote sensible healthcare reforms that lower costs, protect consumer choice, and access to expert guidance."

As part of its commitment to healthcare access and equity, NABIP developed the Healthcare Bill of Rights - a framework promoting essential protections such as transparency, affordability, accessibility, and the right to expert support. We encourage Administrator Oz and other policymakers to champion these principles and ensure that American healthcare remains patient-focused, market-driven, and responsive to those it serves.
