### CURRICULUM OVERVIEW

- Understand enrollment periods and how to avoid penalties.
- Discern the difference between Parts A, B, C and D of Medicare and Plans A, B, C, D, G, F and N offered by providers.
- Master the regulations and methodologies governing benefits management.
- Understand the main features of commonly provided group insurance plans.
- Develop a keen grasp of the latest federal healthcare laws and how clients can most effectively comply with them.
- Adhere to industry-leading ethical business practices.

**The National Association of Benefits and Insurance Professionals Registered Employee Benefits Consultant (REBC) designation is the most prestigious program in the employee benefits industry.**

To best serve their clients, professionals need to understand the provisions, advantages, and limitations associated with each type of benefit or program as a method for meeting economic security.

The designation program analyzes group benefits with respect to the ACA environment, contract provisions, marketing, underwriting, rate making, plan design, cost containment, and alternative funding methods. The largest portion of this program is devoted to group medical expense plans that are a major concern to employers and employees. The remainder of the requirements include electives on topics serving various markets based on a broker's client needs.

Course instruction will be delivered through NABIP's Online Learning Institute: <https://nabip.org/professional-development/rebc-designation>
