Healthcare Compliance Made Simpler: NABIP Applauds Passage of Bipartisan Reforms

Washington, D.C. – The National Association of Benefits and Insurance Professionals (NABIP) celebrates President Biden’s recent signing of the *Employer Reporting Improvement Act* and the *Paperwork Burden Reduction Act* into law. Passed by Congress with overwhelming bipartisan support, this legislation addresses inefficiencies in employer reporting and provides much-needed administrative relief for employers and employees.

“NABIP has long advocated for these critical reforms to address employer reporting challenges and promote practical solutions,” said NABIP CEO Jessica Brooks-Woods. “These new laws modernize outdated processes, reduce costs, and enhance transparency, enabling employers and employees to access quality coverage more efficiently. Health insurance agents and brokers are pivotal in ensuring a smooth transition and maximizing the benefits of these changes.”

NABIP thanks President Biden for his leadership in signing this important legislation into law, applauds the bill’s sponsors for their dedication, and commends all policymakers for their steadfast efforts to enhance ACA compliance and simplify the healthcare process for millions of Americans.

NABIP continues to champion reforms that protect healthcare consumers and ensure access to quality, affordable coverage. As part of these efforts, NABIP promotes its [Healthcare Bill of Rights](#), a comprehensive framework advocating for transparency, affordability, and accessibility in healthcare.
